*All measurements in mm

A robust power & data module ideal for a wide range of applications such as under desk, under floor and in server cabinets & racks. The tough aluminium body is capable of housing a wide variety of outlets including data, voice, AV and power sockets which can be set in 45 degree increments of orientation. Due to our UK production even some of the most complicated configurations can be created and delivered in ten working days, subject to component availability.

Morph - 100

Single gas assisted arm

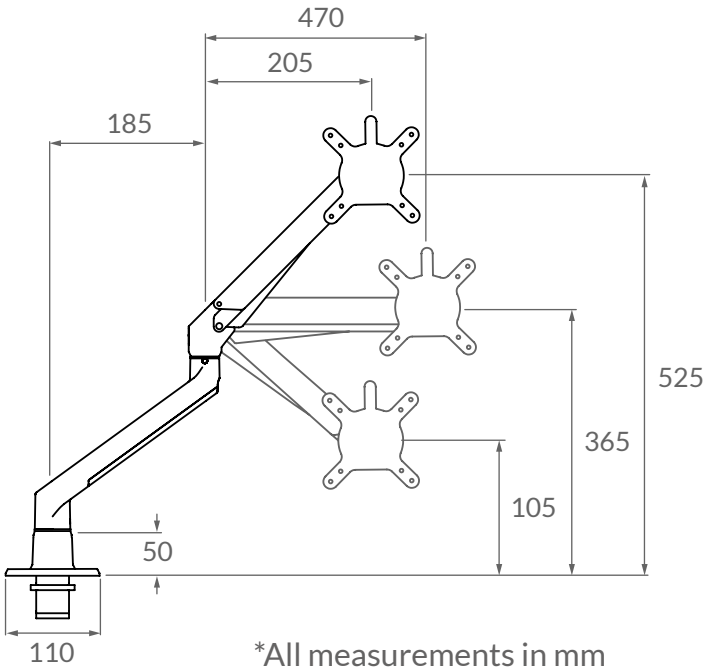
Phone: (+44) 01604 217 879 Website: www.verveworkspace.co.uk

Morph - 100

Single gas assisted arm

- Integrated cable management
- 60cm reach capability
- Effortless fingertip adjustment
- 90 degree tilt and pan
- 2-14 Kg Load Capacity
- Fits monitors up to 32”

An elegant dual articulated monitor arm. Highly adaptable, with add-ons for elevating laptops and increasing screen capacity. Available in white, black and silver as standard.



*All measurements in mm

Morph - Features

Modular monitor arm

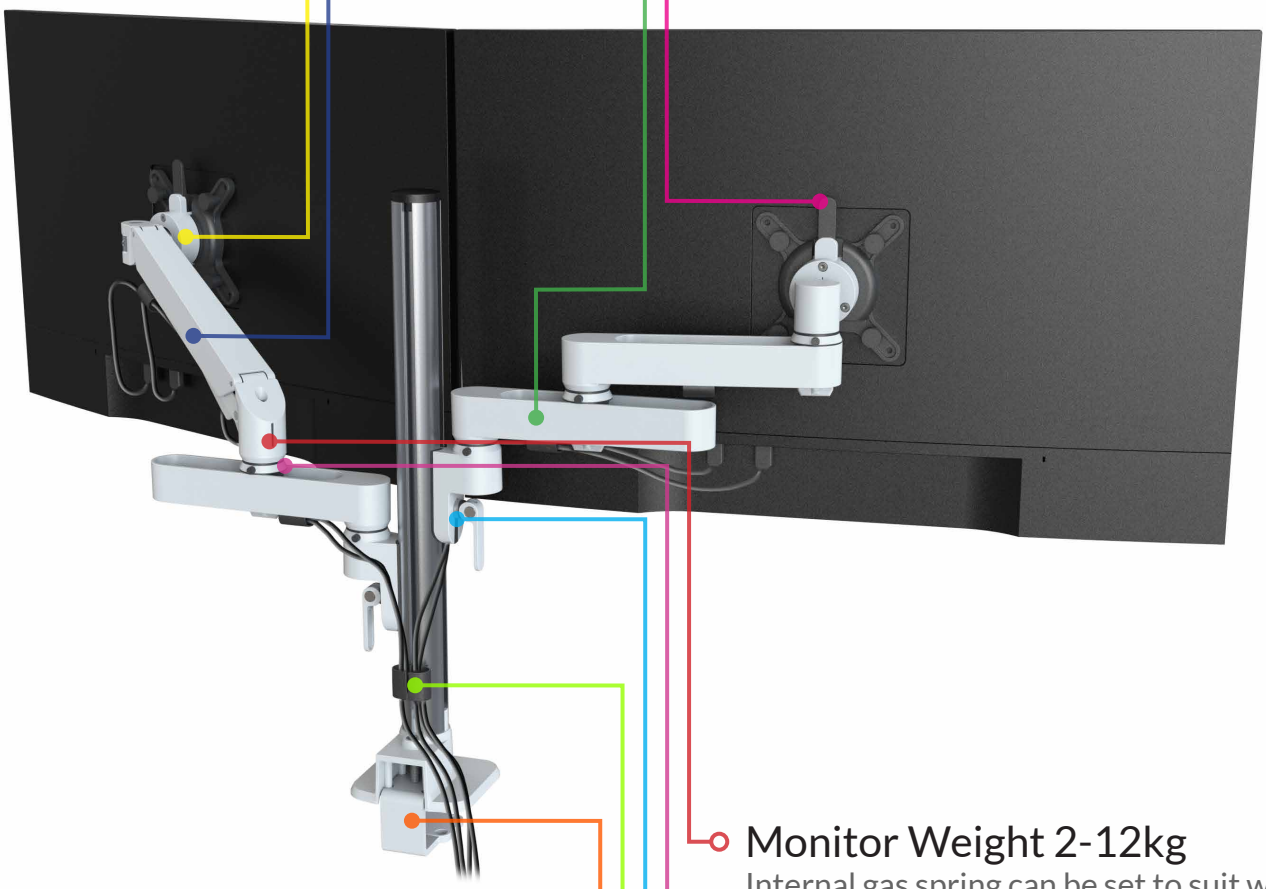
Easy Install Sections of arm slot together without use of hard fixings.

Fingertip Adjustment
Internal gas spring allows for easy vertical movement of monitors on gas model.

Full Range of Motion
Vesa ball joint allows for vertical & horizontal tilt of 20-30 degrees, including 360° rotation.

Complete Depth Control
140mm horizontal arm slide gives adjustment without needing to swing the arm back past the edge of the worktop.

Quick Release Vesa
Simple push release fin to remove monitors.



Top Loading Clamp
Avoids clashes with under-desk items such as cable trays.
Clamp can also be inset to avoid desk screens, can be bolted through worktops and fit through 80mm grommet holes.

Cable Management
Clips located on each section provide a neat solution to keep cables organised and accessible when you need them.

Monitor Weight 2-12kg
Internal gas spring can be set to suit weight of monitor.

Rotation Stopper
Each element has a stopper to limit the swing of the arm. This prevents arms swinging back and damaging vertical surfaces behind.

Easy Height Adjustment
Cam handle release gives a simple way to move the arm vertically on the central pole, maximising the height adjustment range of the arm.

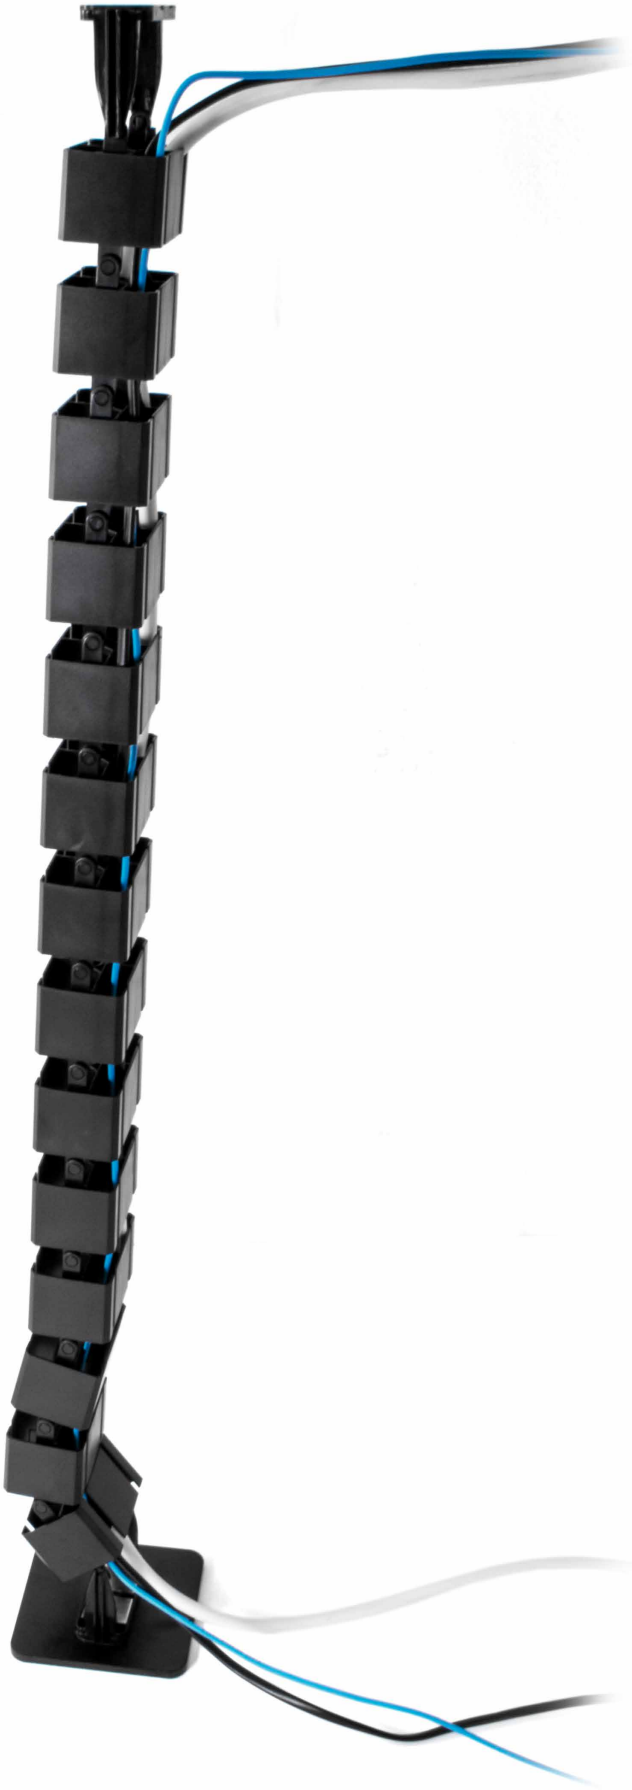
Laptop tray, can be fitted to Vesa attachment.

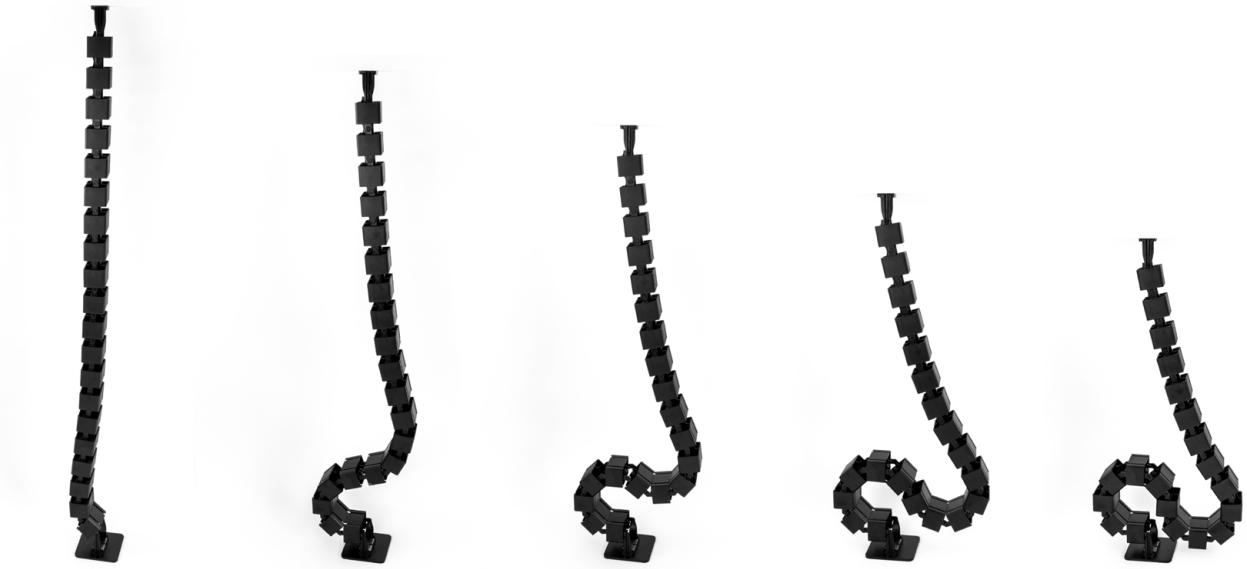
Motion

Cable management



Motion

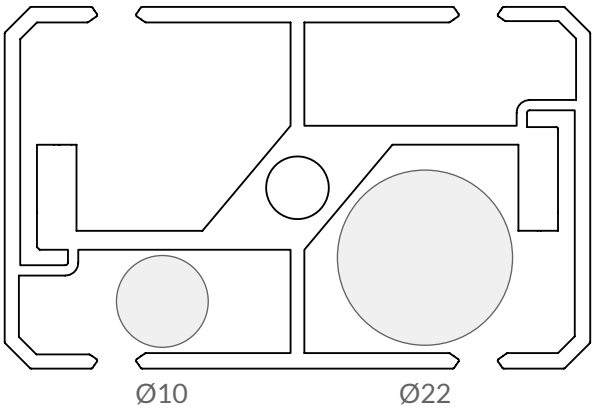
Cable management



The Motion is a vertical cable management spine which easily transitions from vertical to horizontal hanging and can be fixed using either screws or magnets. The direction of bend can be set at each link and the length can be customised. Motion cable control is perfect for sit stand desking. Pliable flame retardant material makes product easier to fit than most equivalent products.

- Excellent for sit stand work stations
- Easy cable segregation
- Vertical & horizontal cable ways
- Fixable directions
- Magnet & screw attachments included
- Optional weighted base
- Adjustable length

Max Cable Size



*All measurements in mm

4 internal segments allows for thorough organisation and segregation of power and data cables. Includes a weighted base and robust cable clips top & bottom. This is a BS6396 compliant cable spine when installed correctly.
